

Hiring: Impact Assessment Specialist - Intermediate /Senior

Do you have a passion for how people and the environment interact? Are you looking for a meaningful work environment where you can take initiative and think outside the box?

Shared Value Solutions (SVS) is seeking a consultant experienced with technical reviews of environmental assessments and regulatory processes, impact assessments, and the identification of appropriate mitigation, compensation and accommodation measures. Some experience with the *Duty to Consult*, the incorporation of Indigenous knowledge in environmental processes, and the negotiation of Impact Benefit Agreements (or similar agreements) would be an asset. The ideal person will be highly entrepreneurial and align with our relationship-based approach to business development.

SVS’s office is located in Guelph, Ontario, Canada. The position will involve some travel in Canada and to northern communities.

Salary and benefits are competitive and negotiable.

In the spirit of reconciliation and diversity, we are committed to increasing our number of Indigenous employees. Please let us know in your application if you are First Nations, Metis or Inuit.

	Impact Assessment Specialist
Responsibilities	<ul style="list-style-type: none"> • Coordinating and assisting with technical peer reviews of regulatory environmental permitting and approvals reports and applications for pipelines, energy, mining, waste, and other major infrastructure development projects. • Suggesting appropriate mitigation, compensation, and accommodation measures to address environmental and/or socio-economic-cultural impacts of major development projects. • Assisting in the interpretation of “traditional ecological knowledge” and land use and occupancy research for environmental processes. • Liaising effectively with Indigenous community clients, regulators and proponents. • Providing <i>Duty to Consult</i> and strategic negotiation advice to First Nation, Metis and Inuit community clients. • Responding quickly and empathetically to client needs. • Clear and concise report writing and presentations. • Experience managing and conducting environmental assessments and/or peer reviews of large-scale environmental assessments in Canada. • Willingness and interest in assisting on a wide variety of SVS projects and service offerings on an as needed basis – i.e. being a “Jack” or “Jill” of all trades. • Ability to manage a wide-range of projects that are delivered on-time and within scope and budget.
Qualifications	<ul style="list-style-type: none"> • 7+ years professional experience required.

	<ul style="list-style-type: none"> • Experience coordinating and conducting technical reviews of or for Federal and Provincial environmental assessments in Canada. • Experience assessing impacts of major developments on the environment and/or socio-economic-cultural components of a community. • Strong understanding of Canadian federal, provincial, and territorial regulatory approvals and permitting processes. • Strong project management / project coordination skills. • Experience working successfully with First Nation, Métis, and/or Inuit communities. • Skills and experience with a relationship-based approach to business development. • Excellent report writing and presentation skills and ability to communicate complex issues in plain language. • High commitment to client satisfaction. • Masters or PhD in Natural Resource Management, Environmental Science, Land Use Planning or equivalent. • Background in fisheries or wildlife biology would be a significant asset. • Other asset qualifications include: land use planning, experience providing training in environmental monitoring or impact assessment, experience with planning and implementing communication and consultation programs and activities, “traditional knowledge”, land use and occupancy, GIS, community economic development, conflict resolution, capacity building / training, multimedia story-telling.
