

GIS Specialist (Short Term Contract) - We offer flexible working hours, learning opportunities, and meaningful work.

We are a growing consulting firm based in Guelph, Ontario that offers its employees flexibility, excellent learning opportunities, and the ability to work with amazing people on a daily basis.

SVS staff have the autonomy and support to grow their careers in the direction they choose to help meet our collective mission of a land where all peoples can reach their full potential, share prosperity and uphold their rights. We are aligned in our commitment to doing good work in both our local and client communities, and we are known for our fun company culture and our commitment to providing excellent client service.

A few more key points about SVS:

- Our company is filled with individuals who like taking initiative and thinking outside of the box.
- We believe in creating shared value in every project we work on and we assist Indigenous and non-Indigenous communities and private sector companies in coming together to create shared value for all parties involved.
- We are a Certified B Corp – we believe business should be about making a difference and doing good for both people and places.

The Position: We're looking for a GIS Specialist for a mainly desktop role to support our consulting team. The pay range we're offering is competitive and negotiable.

- We offer flexible working arrangements.
- We have an incredibly unique company culture that allows us to shine positive lights on our failures and work in an environment where we can learn and grow together, all while doing meaningful work.

Requirements:

- A GIS Diploma or Certificate from a College or University
- Experience with customizing GIS applications
- Familiarity with cloud-based data storage solutions
- Experience with web-GIS platforms
- Ability to work with enterprise database development
- The ability to work both independently and as part of a team

Responsibilities:

- Plotting spatial data using GIS and GPS

- Understanding mapping standards around projections, coordinate systems, and working with geodatabases
 - Impeccable data and metadata management abilities
 - Ability to assess data quality (e.g. completeness, precision, accuracy, and consistency) of complex geographic datasets
 - A variety of spatial analysis tools
 - Effectively troubleshoot ArcGIS problems
- Working well with a team under pressure
- Preparing high-quality maps, spatial analysis, and graphics in a way that takes in to consideration and effectively speaks to the audiences

Asset Qualifications: land use planning, experience providing training in environmental monitoring or impact assessment, experience with planning and implementing communication and consultation programs and activities, “traditional knowledge”, land use and occupancy

Let us know if you speak: French, Cree, Ojibway, Oji-Cree, Innu, or other languages that might be useful for this position.

We are on the traditional territory of the Attawandaron People. We honour the original ancestors of this land and also offer respect to our Haudenosaunee, Anishinaabe, Mississauga and Métis neighbours. We strive to be accountable by acknowledging this history and cultivating respect in our relationships with our Indigenous neighbours and the land.

We are located downtown Guelph and we are lucky to be close to public transit, restaurants, and parks.

Summing it Up - Why should you apply?

- Fun company culture
- Learning and career growth opportunities
- Flexible working hours
- Meaningful work
- Great coffee

In the spirit of reconciliation and diversity, we are committed to increasing our number of Indigenous employees. Please let us know in your application if you are First Nations, Metis or Inuit.
