

**YOUR
HISTORY,
UNDER YOUR
CARE AND
CONTROL**

SHARED VALUE SOLUTIONS ARCHAEOLOGY SERVICES

Reclaiming the use, protection, research, and management of your Indigenous Nation's cultural heritage can strengthen the connections to land, spirit, and power. Taking control over these precious resources supports your assertion of Treaty and Aboriginal Rights, and can be central in your journey towards self-determination. Our team at SVS stands with you in taking a community-led, holistic approach to archaeology and heritage projects.

Services:

- Archaeology & cultural heritage policy development
- Archaeological management plans
- Community-driven archaeological assessments, fieldwork, and training
- Cultural material repatriation support
- Technical reviews

FUNDING

Creative and financially stable funding for archaeology and heritage does exist — if you know where to look.

Share your ideas and we will help you find solutions to bring your vision to life!

WHY CHOOSE SVS?

- **We take working ourselves out of a job seriously:** We wholeheartedly believe that heritage should be managed by descendant communities and not by politicians and archaeologists.
- **Relationships first:** It's all about building long-term, trusting relationships. We take the time to learn your goals, values, needs, culture, and concerns, and work closely with you throughout every project we do together. You know what's important, we're here to support.
- **Capacity expansion:** As with every project we do, we are committed to building the skills and capacity you need to address heritage.
- **In-house experts:** Archaeologists, Indigenous Knowledge studies, GIS and mapping, lands department support, regulatory support, and community planning.

ABOUT SHARED VALUE SOLUTIONS

Shared Value Solutions is an environmental and community development consulting firm with staff in Calgary, Edmonton and Canmore, as well as in British Columbia, Yukon, Labrador, Ontario and New Brunswick. We have worked with over 80 First Nations, Métis, and Inuit Nations on climate change, environmental and energy planning, and on major projects that impact territories, rights and interests, such as oil and gas, power generation and transmission, mining, dams, roads, pipelines, renewable energy, fisheries, forestry, flood management, and contaminated sites.
